

Player Report on Kahuan Vinicius

Season 2025/2026 Club FK Karviná

Date of Report 17-07-2026 Position CF Age 22 Foot n/a Height n/a

Physique

He looks physically sturdy inside the box and competes well in the air, giving the impression of a strong, competitive frame rather than a light, elusive forward.

Pace

Not a mobile or explosive forward. He rarely runs in behind and rarely drives with the ball from deeper areas. His game is built on where he stands in the box, not on how fast he gets there.

Work-Rate

Limited pressing for a lone striker, though he is not entirely passive off the ball and does put in a moderate shift defensively when needed.

Attitude

He competes for the ball often but does not come away with it as often as he would like. That points to persistence and a willingness to fight rather than genuine physical dominance.

Technical

A tidy, reliable passer, but his work with the ball at his feet is weak. Dribbles rarely come off, and he offers almost nothing creatively for teammates. Not a carrier or a creator.

Intelligence

He finds good scoring positions consistently and moves well in the box, but he badly underdelivers in front of goal relative to the chances he creates for himself. A clear composure and finishing gap.

Comments

A young Brazilian number nine whose movement is more encouraging than his finishing. He combines a real presence inside the box with almost no mobility or ball carrying quality, and a finishing touch that lags well behind the chances he creates for himself. For Hradec Králové specifically, the club's vertical, transition based attacking style rewards forwards who can progress and accelerate the ball themselves. Vinicius's game runs counter to that identity.

Strengths

- Consistently finds good scoring positions and threatens the box
- Competitive and combative in the air
- Reliable, tidy passer under pressure

Weaknesses

- Clear finishing underperformance relative to the chances he creates
- Very limited mobility and ball progression from deep
- Poor ball retention when dribbling, with minimal creative touch
- A small number of matches watched so far, the picture should be treated as early
