

Player Report on P. Kikianis

Season 2025/2026 Club Adelaide United

Date of Report 20-07-2026 Position LCB Age 21 Foot n/a Height n/a

Physique

Size is not confirmed, but he holds up well in the air and is rarely beaten cheaply. He reads as a composed, positionally sound defender more than an imposing physical specimen.

Pace

Not a runner or a carrier out from the back. His value is in reading the game and distributing, not in driving forward with the ball himself.

Work-Rate

An ever present figure at the back who barely misses a match. A genuine workhorse who gets across to cover consistently.

Attitude

Wins the large majority of the challenges he enters. Calm, controlled, and disciplined enough to avoid unnecessary fouls.

Technical

An outstanding distributor for a centre back. Very comfortable in possession, accurate in his passing, and shows a genuine habit of moving the ball forward through his passing rather than just recycling it sideways.

Intelligence

Reading the game is his standout trait. He steps in to intercept at an excellent rate for the position, regularly snuffing out danger before it develops.

Comments

A genuinely reliable, ever present defensive foundation. Not a ball carrier or a physical dominator, but an excellent reader of the game and one of the best passing centre backs covered in this cycle. The archetype of a modern, possession comfortable stopper who lets others do the carrying.

Strengths

- Excellent reading of the game and interceptions
- Outstanding passing for a centre back
- Controlled and disciplined, rarely fouls
- Ever present across a long season

Weaknesses

- Almost no ball carrying threat from the back
- Modest aerial presence for a centre back
- Limited attacking upside
- Needs a system that values distribution over physical dominance

Overall rating: 6.5 / 10

Fit pro HK: 6 / 10
