

Player Report on P. Kikianis

Season 2025/2026 Club Adelaide United

Date of Report 20-07-2026 Position LCB Age 21 Foot n/a Height n/a

Physique

Size is unrecorded, but he holds up well in the air and is rarely beaten cheaply — reads as a composed, positionally sound defender more than an imposing physical specimen.

Pace

Not a runner or a carrier out from the back. His value is in reading the game and distributing, not in driving forward with the ball himself.

Work-Rate

An ever-present figure at the back who barely misses a match — a genuine workhorse who gets across to cover consistently.

Attitude

Wins the large majority of the duels and defensive contests he enters — calm, controlled, and disciplined enough to avoid unnecessary fouls.

Technical

An outstanding distributor for a centre-back — very high passing volume, excellent accuracy, and a genuine habit of progressing the ball forward through his passing rather than just recycling possession sideways.

Intelligence

Anticipation and reading of the game are his standout traits — he intercepts at an excellent rate for the position, regularly snuffing out danger before it develops.

Comments

A genuinely reliable, ever-present defensive foundation — not a ball-carrier or physical dominator, but an excellent reader of the game and one of the best passing centre-backs covered in this cycle. The archetype of a modern, possession-comfortable stopper who lets others do the carrying.

Strengths

- Excellent reading of the game and interceptions
- Outstanding passing volume and accuracy for a centre-back
- Controlled and disciplined — rarely fouls
- Ever-present availability across a long season

Weaknesses

- Almost no ball-carrying threat from the back
- Modest aerial return for a centre-back
- Limited attacking upside
- Needs a system that values distribution over physical dominance

Overall rating: 6.5 / 10

Fit pro HK: 6 / 10
